

# TBLI CONFERENCE SERIES

Convening the Global Responsible Investment Community

[www.tbliconference.com](http://www.tbliconference.com)

## The TBLI CONFERENCE Series

We are a highly respected convener of responsible investment practitioners and thought leaders, world-wide. With a track record of almost 20 years and 30+ events across Europe, Asia, Latin America and the US, we balance high-level content and a focus on raising private capital for sustainable investments.

## What to expect at TBLI CONFERENCE

- Networking opportunities with a diverse, high-quality audience
- A carefully curated program addressing a diverse set of topics of interest for both ESG as well as Impact Investors.
- TBLI Workshops on case studies, market analysis and lessons learned
- Interactive TBLI Masterclasses on opportunities, innovation and risks
- Entrepreneur Salons featuring pre-qualified social entrepreneurs
- High-Level Plenary Sessions with experienced investors, social entrepreneurs, and Responsible Investment specialists
- Marketplace, Speed-Dating Session & Private Meetings

# Testimonials

## What Though Leaders say about TBLI CONFERENCE

"TBLI Conference stands out from other conferences in the standard of value I received during my attendance. The topics covered, quality of contacts made, deals executed and community generated are noticeably better than other conferences I've attended. Thank you Mr. Rubinstein for your vision & execution"

[Ibrahim ALHusseini The Husseini Group LLC Managing Member](#)

TBLI is a battery charger event. It's an event that makes you realize how outdated your thinking has become. It is a crash course, a mini green investing MBA. It's an energizing place—it's got a critical role in diffusing the best practice.

[Leo Johnson Co-Founder of Sustainable Finance Limited](#)

TBLI has established itself as the most significant gathering place for those interested in sustainable and related investment strategies. The rich array of firms and strategies represented at make [TBLI] the best place to come to hear from cutting edge investors and learn from their experiences.... By reaching across the silos it fosters a set of discussions that are critical to advancing not only the interests of those involved in sustainable finance, but in improving the understanding of mainstream investors with regard to the innovations taking place within the financial services arena.

[Jed Emerson Senior Fellow, Generation Foundation, Generation Investment Management](#)

The TBLI is the internationally most renowned gathering for SRI we have today. As in all paradigm shifts, change begins with a growing number of champions and leaders who are clever enough to survive in the old paradigm while preparing for the new. To that end TBLI, the most influential conference on this arena, has played a role that cannot be overestimated.

[Karl Henrik Robert, PhD, MD Founder of Natural Step](#)

The quality of the keynote sessions and workshops was exceptional. Speakers and participants brought great insights and experience on impact investing and ESG. The knowledge and expertise was clearly on display and allowed for informative and vibrant discussions.

[Andrew Ausili \(Director Public Policy Of Sustainability Affairs Americas, Credit Suisse](#)

This TBLI conference was additional proof for me that creative, open-minded and visionary investors are helping ensure that the capitalist engine continues to be one of the best ways to tackle society's evolving challenges. I came away inspired, and I look forward to the next conference."

[Niel Golightly VP External Affairs, Shell Oil](#)

The panels are lively, informative, and expertly moderated. As a sustainably practitioner and advocate, TBLI is one of the events that returns real value.

[Evan Harvey Managing Director of Corporate Sustainability, NASDAQ OMX](#)

Thank you very much for the nice time at TBLI, and for the storm of ideas you unchained in my brain.

[Rosanna Grimaldi Executive Director, STOXX Ltd.](#)

Congratulations to you and your team for yet another great TBLI event. You seem to have a great knack and skill in always finding some really interesting peppel that no other conference or body ever does and some interesting new funds for investors to consider.

[Howard Pierce Former CEO of Environment Pension Fund](#)
