# TBLI Capital Connect

TBLI Capital Connect: TBLI will research potential investors, identify the most suitable investors that you are looking to reach and make introductions to the investors using the CRM Capital Connect.

This is done through our database and matchmaking engine that has over **5500 investors** and their investment profile coded, allowing to quickly identify the most relevant potential investors to reach out to per client.

How does the matchmaking work? [Watch demo video](#)

## Key Benefits TBLI Capital Connect:

- **Active form of fundraising:** TBLI will identify potential relevant investors, handle outreach and follow-up with them to arrange meetings with the client
- **Valuable insights:** Weekly updates and reports of all leads and outreach
- **Curated service, targeted outreach:** TBLI leverages our 25-year-old network of impact investors combined with a matchmaking engine to find tailor-made leads for companies and funds in their process of fundraising. Over 5500 investors have their investor profile coded in matchmaking database.
- **Convenience:** AS TBLI handles all research, outreach and follow-up with potential leads, there is little to no work required from the clients until a meeting is arranged with the investor.

**Cost Euros 5.000,—10.000**, (based upon the status of direct deal or fund (min 3 months with a performance fee.)

Interested in potentially making use of the service? [Schedule a call](#) to learn more

We focus on achieving **rapid results at the highest level of quality**. Our focus is **low to zero-carbon projects**. Here are some examples of projects we finished or are in process of finalising:

1. **Carbon Disclosure Project:** We were instrumental in getting initial commitments from large institutional investors to join the Carbon Disclosure Project.

2. **Financial Networking:** Raised capital and found strategic partners for leading clean- tech private equity funds, micro-finance bonds, and green mortgages.

a. **Clients:**

- Geopolymer Cement-Zero carbon cement using fly ash, slag, and saltwater with additive.
- Pure Salmon- Vertical salmon farm on land (5 billion investment, 10 locations)
